Cartographie de la pauvreté (2017) (CP 2017)

Aucune information

Overview	
Type	Enquête sur les conditions de vie des ménages [hh/lsmis]
Identification	TGO-INSEED-CP-2017-001
Version	Production Date: 2017-12-30 Dernière version des fichiers de données après traitement Notes Dernière version ayant permis la production des indicateurs et des tableaux d'analyse
Series	C'est la quatrième enquête de ce genre. Au Togo, des enquêtes sur le Questionnaire Unifié des Indicateurs de Base du Bien-être QUIBB (2006, 2011 et 2015) ont été réalisées dans le but de produire les profils de pauvreté.

Abstract

Pour mettre en œuvre des politiques ciblées de lutte contre la pauvreté, les décideurs politiques et les partenaires au développement ont besoin d'informations statistiques désagrégées sur les conditions de vie des ménages jusqu'au niveau le plus fin possible. Cette étude s'inscrit dans la perspective de rendre disponible des informations récentes sur la pauvreté.

La méthodologie de la cartographie de la pauvreté permet de disposer et d'avoir une meilleure lisibilité des données sur la pauvreté à travers des cartes. Elle est élaborée en combinant des données d'enquêtes auprès des ménages qui ont l'avantage de fournir des informations sur la consommation des ménages et celles de recensement qui permettent de fournir des données exhaustives et désagrégées au niveau le plus fin en termes de couverture géographique. Dans ce rapport, les indicateurs de pauvreté à savoir l'incidence, la profondeur et la sévérité d'une part et d'autre part l'indice de Gini et certains indicateurs des Objectifs de Développement Durable (ODD) ont été produits et analysés. Les résultats indiquent au niveau national une diminution de 5,2 points de la proportion des pauvres, passant de 58,7% à 53,5% sur la période 2011- 2017. Au niveau régional, on relève des baisses considérables des estimations de l'incidence de la pauvreté comparées à celles de 2011 dans presque toutes les régions. Dans la région des Savanes où le taux de pauvreté reste élevé depuis des années, l'incidence de la pauvreté est passée de 87,3% en 2011 à 65,0% en 2017. Ce taux est passé de 68,9% à 58,2% dans la région de la Kara, de 76,0% à 59,9% dans la région Centrale et de 65,9% à 56,6% dans la région des Plateaux sur la période 2011-2017. A l'inverse, c'est dans la région Maritime et à Lomé commune que le taux de pauvreté a connu une légère augmentation passant respectivement de 45,3% à 52,6% et de 27,0% à 30,3% entre 2011-2017.

Au niveau national, les inégalités de répartition des revenus sont élevées (indice de Gini 0,427). Les indices traduisant les inégalités au niveau régional classent les régions en deux groupes. Lomé Commune, la région de la Kara et la région Maritime, avec un indice de Gini situé autour de 0,425, constituent les régions dans lesquelles les inégalités sont plus élevées. A l'opposé, les régions des Plateaux, des Savanes et de la Centrale présentent de faibles inégalités avec un indice de Gini autour de 0,39. Par ailleurs, il est à noter que des efforts considérables sont à consentir pour améliorer les conditions de vie des populations des préfectures de Kpendjal, OtiSud, Akébou et Bas-Mono

Kind of Data	Données échantillonnées [ssd]
Unit of Analysis	Ménage

Scope & Coverage

Scope

Pauvreté, éducation, Travail, Biens durables et non durables, habitat

Keywords	Pauvreté, Autoconsommation, Revenu, Ménage
----------	--

Topics	Consommation / comportement des consommateurs [1.1], Formation de base [6.1], Chômage [3.5], Revenu, propriété, épargne et investissement [1.5], Conditions de travail [3.6], Habitat [10.1], Utilisation du sol et planification [10.2], Enseignement obligatoire et pré-scolaire [6.2]
Time Period(s)	2017-2024
Countries	TOGO
Geographic Coverage L'enquête fait office de mini recensement afin d'avoir des données désagrégées représentatifs au niveau préfecture.	
Universe L'enquête s'est déroulée sur toute l'étendue du territoire national et concerne la population totale	

Producers & Sponsors	
Primary Investigator(s)	Institut national de la statistique et des études économiques et démographiques (INSEED), Ministère de la planification du développement et de la coopération

Sampling
<u>Sampling Procedure</u> Au total, cinq cent trente (530) Zones de Dénombrement (ZD) ont été tiré dans les trente-neuf (39) préfectures et les cinq (5) arrondissements de Lomé Commune. Après segmentation des ZD sur le terrain, tous les ménages faisant parti de la portion sélectionnée après tirage ont été recensés. Ce qui fait un total de 27 046 ménages enquêtés. Après les traitements pour l'élaboration de la cartographie de la pauvreté, 26 902 ménages ont été retenus pour les estimations et le calcul des indicateurs de pauvreté
<u>Deviations from Sample Design</u> Aucune
<u>Response Rate</u> Tous les ménages faisant parti de la portion sélectionnée après tirage ont été recensés. Ainsi le taux de réponse est de 100%
<u>Weighting</u> Elle a consisté dans un premier temps à calculer le poids initial des ménages de la grappe en prenant l'inverse de la probabilité de sélection d'un ménage dans la grappe. Ensuite on détermine le poids brute

Data Collection	
Data Collection Dates	20 jours: start 2017-11-20 20 jours: end 2024-12-09
Time Period(s)	3 semaines: start 2017-11-20 3 semaines: end 2017-12-09
Data Collection Mode	Interview face à face [f2f]

Questionnaires

Il s'agit d'une enquête sur les conditions de vie des ménages.

Questionnaire cartographie de la pauvreté.

Ce questionnaire aborde les sections suivantes : la taille du ménage, liste des membres du ménage, éducation, travail, possessions des parcelles de terre, d'animaux et de biens durables

Data Collector(s)	Institut national de la statistique et des études économiques et démographiques (INSEED) , Ministère de la planification du développement et de la coopération
--------------------------	---

Supervision

L'équipe de supervision est composée des formateurs qui effectuent des descentes sur le terrain avec les agents enquêteurs. Elle inclue les cadres de l'INSEED, les consultants ...

Ils effectuent la supervision à des périodes régulières jusqu'à la fin de leur mission. Cette équipe de supervision est ensuite suivie par une équipe de coordination pour assurer une bonne qualité des données.

Data Processing & Appraisal**Data Editing**

Les données sont traitées en atelier. Le traitement est effectué en vérifiant la cohérence, le traitement des valeurs manquantes, la recodification et la validité des données à l'aide de contrôle

Other Processing

Il s'agissait des traitements de valeurs manquantes

Estimates of Sampling Error

Aucun

Other Forms of Data Appraisal

Pour les tests d'égalité des moyennes, un intervalle de confiance de 95% a été considéré. Autrement dit, nous avons testé si la valeur moyenne de chaque variable du QUIBB 2015 se situait à l'intérieur de l'intervalle défini par la valeur moyenne de ces mêmes variables calculées sur les données de l'enquête pour la cartographie de la pauvreté plus ou moins deux écarts-types de ces mêmes moyennes. Les variables retenues doivent avoir une structure identique dans les deux bases de données.

Confidentiality

Toute utilisation des données produites ou gérées par le Système statistique national (SSN) doit faire l'objet d'une demande d'autorisation adressée à l'Institut National de la Statistique et des Etudes Economiques et démographiques (INSEED) qui en assure la coordination. Il y sera clairement mentionné l'utilisation qui sera faite des données et une copie du projet d'étude et de l'attestation de recherche sera jointe à la demande. En cas d'avis favorable de l'INSEED, un formulaire d'engagement devra être renseigné et signé par l'intéressé. Ce dernier devra transmettre à l'INSEED une copie de son rapport d'étude à des fins utiles.

Access Conditions

Le service ou l'organisation demandeur devra s'engager à respecter les conditions suivantes :

1. L'utilisateur devra se conformer à garantir l'anonymat des personnes physiques ou morales concernées par l'enquête ; et n'utiliser ces données qu'aux fins de diffuser ou de publier des résultats statistiques agrégés.
2. L'utilisateur est responsable de ses conclusions ou études tirées de ces données et en cela, la responsabilité de l'INSEED ne saurait être engagée de quelque manière que ce soit.

3. Les données ne devront être ni copiées ni transmises à d'autres personnes ou organisations, directement ou indirectement, sans l'accord écrit préalable de l'INSEED.
4. Une copie de tout rapport produit sur la base des données sera transmise pour information et commentaire à l'INSEED.
5. L'utilisateur est informé que l'INSEED se réserve le droit de recourir aux voies et moyens qu'il jugera utiles en cas de non respect de l'un quelconque de ces engagements, pour se faire restaurer dans ses droits.
6. L'utilisateur peut en cas de besoin s'adjoindre le concours de l'INSEED dans la réalisation de l'étude.
7. L'utilisateur citera la source comme indiquée à la rubrique "Citation".
